

## **INFORMED CONSENT FORM**

1. Title of study : Exploring the Efficacy of NAO Robot as a Language Instructor: A Comprehensive Study
2. Investigator's name : Ipshita Ahmed Moon
3. Institute/Organization : Department of Robotics and Mechatronics Engineering, University of Dhaka
4. Purpose and nature of the study : To explore and assess the importance of a humanoid robot serving as a second language instructor, and to contrast it with a conventional human instructor and an Android app.
5. Selection of the participants : The study will be conducted on students at school level.
6. Expectations from and involvement of the participants : Engaging the selected children in a Japanese vocabulary session and completing a questionnaire, with the attempt to gather qualitative data.
7. Risk and benefit : There are no physical or psychological risks for the children participating in this study. Besides, their involvement will enable us to study the effectiveness of NAO robot as a language instructor, enabling us to design robots better suited for education purpose.
8. Privacy, anonymity and confidentiality : To avoid any untoward disclosure of any sort, all identifying and personal information of the children will be kept confidential.
9. You have the right to allow your child to participate or not to participate in this study. You can withdraw your consent at any time.
